Room with a view

Interior designers create spaces that people can enjoy, both for their pragmatic value and visual appeal. It’s these core skills and sensibilities that you’ll learn in the Diploma of Interior Design and Decoration. You’ll develop skills in 2D and 3D design (both manual and CAD), as well as the fine art of decorative design. The importance of colour, materials and finishes, interior construction techniques, furniture and fittings are explored, as well as what’s trending in style.

You’ll develop documentation and technical skills in order to present your ideas to potential clients.
