Expand your creative writing skills!

This program is designed as a follow-up to ‘Creative Writing’ and was developed in response to demand from those who had successfully completed that program and wanted to learn more. It offers participants the opportunity to further expand their knowledge and skills about the creative writing process like Richard uses.

Topics include innovative ways to create atmosphere and excitement in your writing, how to choose and use different tenses, how to write effective dialogue, how to use emotive language, how to create memorable characters and atmospheric settings.
