Learn the fundamentals of RevitCAD!

This course will enable the student to produce a basic set of residential house plans suitable for analysis by a licensed Building Designer, Architect or Structural Engineer. (Please Note: It is not legal for individuals without a current Building Services Authority (BSA) Building Design Licence to submit architectural plans to local authorities).

You will develop basic knowledge in the Revit Architecture 2013 interface including: understanding levels, creation of the 3D model, creation of 2D views (elevations and section), creation and import of a base...more online
